

# STEP-BY-STEP

You draw here.

teacup  
↓

- ① Draw a squashed oval.

- ② Draw a curved line under it.

- ③ Add a handle.

- ④ Put a bigger squashed oval underneath for a saucer.

- ⑤ Decorate however you like!

- ⑥ For more realism, add a curve of darker color inside the cup, and make wiggly lines above it for steam.

Band-Aid  
↓

- ① Draw a square.

- ② Add rectangles with curved sides. (I know, then they're not rectangles, but you get the idea.)

- ③ Put small dots on the square part - TA DA!

pencil  
↓

- ① Make a skinny rectangle with one ragged end.

- ② Put a triangle on the ragged part.

- ③ Add a curved rectangle with two lines in it on the other end.

- ④ Color it in and you're ready to draw! (A bite mark adds realism.)
